

## IN THE CLAIMS

This listing of claims replaces all prior listings.

24. (Previously presented) A computer network implemented method, comprising the steps of:

transmitting from a consumer computer over the Internet to a Web site of a manufacturer a request for manufacturer incentives to purchase one of a product and a service offered by said manufacturer;

in response to said request for manufacturer incentives, transmitting region data from said Web site of said manufacturer over the Internet to a remote Web site;

in response to receipt of region data at said manufacturer's Web site, transmitting from said remote Web site to said Web site of said manufacturer at least one manufacturer incentive and at least one name and address of a retailer; and

transmitting from said Web site of said manufacturer over the Internet to said consumer computer said at least one manufacturer incentive and said at least one name and address.

25. (Previously presented) The method according to claim 24, wherein said step of transmitting from said remote site further comprises transmitting a link to a Web site of said retailer.

26. (Previously presented) The method according to claim 24, further comprising the step of determining said at least one manufacturer's incentive and said at least one name and address of a retailer by querying, using said region data, a database from a server of said remote Web site.

27. (Previously presented) The method according to claim 24, further comprising the steps of:

transmitting from said consumer computer to said Web site of said manufacturer selection data indicating selection of said at least one manufacturer incentive;

transmitting from said Web site of said manufacturer to said remote site said selection data;

transmitting from said remote site to said Web site of said manufacturer details of the selected at least one manufacturer incentive; and

transmitting from said Web site of said manufacturer to said consumer computer said details.

28. (Previously presented) A computer network implemented method, comprising the steps of:

transmitting from a consumer computer over the Internet to a Web site of a retailer a request for manufacturer incentives to purchase one of a product and a service offered by a manufacturer;

in response to receipt of said request at said Web site of said retailer, transmitting said request from said Web site of said retailer over the Internet to a remote Web site;

in response to receipt of said request at said remote site, transmitting from said remote site over the Internet to said Web site of said retailer a list of manufacturer incentives; and

in response to receipt of said manufacturers incentives at said Web site of said retailer, transmitting over the Internet to said consumer computer said list of manufacturers incentives.

29. (Previously presented) The method according to claim 28, further comprising the steps of:

transmitting a user identification from said Web site of said retailer over the Internet to said remote Web site in association with said request; and

determining manufacturer's incentives to transmit from said remote Web site to said Web site of said retailer based upon said user identification.

30. (Previously presented) The method according to claim 28, further comprising the step of transmitting from the consumer computer over the Internet to the Web site of the retailer region data.

31. (Previously presented) The method according to claim 30, wherein said region data is postal code data.

32-35. (Canceled)

36. (Previously presented) A computer network implemented system, comprising:  
means for transmitting from a consumer computer over the Internet to a Web site of a manufacturer a request for manufacturer incentives to purchase one of a product and a service offered by said manufacturer;

means for, in response to said request for manufacturer incentives, transmitting region data from said Web site of said manufacturer over the Internet to a remote Web site;

means for, in response to receipt of region data at said manufacturer's Web site, transmitting from said remote Web site to said Web site of said manufacturer at least one manufacturer incentive and at least one name and address of a retailer; and

means for transmitting from said Web site of said manufacturer over the Internet to said consumer computer said at least one manufacturer incentive and said at least one name and address.

37. (Previously presented) The system according to claim 36, wherein said means for transmitting from said remote site said list further comprises means for transmitting a link to a Web site of said retailer.

38. (Previously presented) The system according to claim 36, further comprising means for determining said at least one manufacturer's incentive and said at least one name and address of a retailer by querying, using said region data, a database from a server of said remote Web site.

39. (Previously presented) The system according to claim 36, further comprising:  
means for transmitting from said consumer computer to said Web site of said manufacturer selection data indicating selection of said at least one manufacturer incentive;

means for transmitting from said Web site of said manufacturer to said remote site said selection data;

means for transmitting from said remote site to said Web site of said manufacturer details of the selected at least one manufacturer incentive; and

means for transmitting from said Web site of said manufacturer to said consumer computer said details.

40. (Previously presented) A computer network implemented system, comprising:  
means for transmitting from a consumer computer over the Internet to a Web site of a retailer a request for manufacturer incentives to purchase one of a product and a service offered by a manufacturer;

means for, in response to receipt of said request at said Web site of said retailer, transmitting said request from said Web site of said retailer over the Internet to a remote Web site;

means for, in response to receipt of said request at said remote site, transmitting from said remote site over the Internet to said Web site of said retailer a list of manufacturer incentives; and

means for, in response to receipt of said manufacturers incentives at said Web site of said retailer, transmitting over the Internet to said consumer computer said list of manufacturers incentives.

41. (Previously presented) The system according to claim 40, further comprising:

means for transmitting a user identification from said Web site of said retailer over the Internet to said remote Web site in association with said request; and

means for determining manufacturer's incentives to transmit from said remote Web site to said Web site of said retailer based upon said user identification.

42. (Previously presented) The system according to claim 40, further comprising means for transmitting from the consumer computer over the Internet to the Web site of the retailer region data.

43. (Previously presented) The system according to claim 42, wherein said region data is postal code data.

44-47. (Canceled)

48. (Previously presented) A computer program product for implementing on a network a method, comprising the steps of:

in response to receiving at a Web site of a manufacturer a request for manufacturer incentives to purchase one of a product and a service offered by a manufacturer transmitted from a consumer computer over the Internet, transmitting region data from a Web site of said manufacturer over the Internet to a remote Web site;

in response to receipt of region data at said manufacturer's Web site, transmitting from said remote Web site to said Web site of said manufacturer at least one manufacturer incentive and at least one name and address of a retailer; and

transmitting from said Web site of said manufacturer over the Internet to said consumer computer said at least one manufacturer incentive and said at least one name and address.

49. (Previously presented) A computer program product for performing a computer network implemented method, comprising the steps of:

in response to receipt of a request for manufacturer incentives to purchase one of a product and a service offered by a manufacturer transmitted from a consumer computer over the Internet to a Web site of a retailer, transmitting said request from said Web site of said retailer over the Internet to a remote Web site;

in response to receipt of said request at said remote site, transmitting from said remote site over the Internet to said Web site of said retailer a list of manufacturer incentives; and

in response to receipt of said manufacturers incentives at said Web site of said retailer, transmitting over the Internet to said consumer computer said list of manufacturers incentives.

50. (Currently amended) A computer implemented method comprising performing transactions involving multiple separate entities, including

transmission from ~~the~~ a consumer to a retailer website,

transmission from the retailer website to a remote website, and

transmission from the remote website to the retailer website, of a list of manufacturer incentives.

51. (Currently amended) A system comprising structure for performing transactions involving multiple separate entities, including:

means ~~mean~~ for transmitting from ~~the~~ a consumer to a retailer website,

means for transmitting from the retailer website to a remote website, and

means for transmitting from the remote website to the retailer website, of a list of manufacturer incentives.
